# About Us

Our project is centered around the use of sabai grass, a fast-growing and eco-friendly resource native to West Bengal. Our sabai grass products are lightweight, easy to carry and customizable, with a variety of sizes and shapes to choose from.

They are designed to be durable and easy to maintain, ensuring that they last for years to come. Our products are a great way to add a touch of nature to your home decor while supporting eco-friendly and sustainable living. Each piece is carefully handcrafted by skilled artisans using traditional techniques, preserving cultural heritage and promoting artisanal skills. **We offer customization options that are available upon request.**

By choosing our sabai grass products, you are not only making a conscious choice for the environment but also supporting local communities and their livelihoods.
